

CALIFORNIA ENERGY COMMISSION

1516 NINTH STREET
SACRAMENTO, CA 95814-5512

January 8, 2003

Mr. Sam Grossman, Project Director
Malburg Generating Station
2715 E. 50th Street
Vernon, CA 90058

Dear Mr. Grossman:

**NOTICE OF APPROVAL OF IPC FOR TEMPORARY STORAGE/FABRICATION
AREAS – MALBURG GENERATING STATION PROJECT (01-AFC-25)**

This is in response to your Insignificant Project Change (IPC) request dated November 14, 2003, to add temporary storage/fabrication areas for construction of the Malburg Generating Station (MGS) Project. On December 24, 2003, we sent a public IPC Notice and description of your proposal to interested individuals and organizations on the Compliance Mailing List for the MGS Project, notifying them of our findings of no significant impacts to the environment or public health and safety due to the proposed project changes. The notice asked them to contact the Energy Commission if they had any objections by January 7, 2004. The comment period has expired with no objections received. Therefore, you are authorized to commence preparation and use of the new facilities.

This is the final notice of approval of your request under section 1769(a)(2), Title 20, California Code of Regulations. No further action will be taken other than to record this letter in the Commission docket and place a description of the change in the MEC project file. We appreciate your cooperation in this matter.

If you have any questions, please contact me at (916) 654-3936.

Sincerely,

Original Signed by:

STEPHEN D. MUNRO
Compliance Project Manager
Systems Assessment and
Energy Facilities Siting Division
